danpaul88 wrote on Wed, 31 December 2014 08:123.4.4 is not netcode compatible with 4.x and simply recompiling 3.4.4 with a new version number will cause a 4.x server to send netcode that the client can't understand, which is liable to promptly crash the client. Thus I'd be very surprised if they have actually done that successfully.
Well I've seen 3.4.4 players on 4.x servers, 4.2 isn't backward compatible but that's because we gave up trying to keep it backward compatible.
