Another good rule to remember, don't JUST lay mines, lay them efficiently!

For example with back door of ref:

Lay mines alongside the right hand side of the door from inside. Lay 2-3 dummy mines so they can disarm. They will think that's all that was there, and run straight into the other mines.

Try to lay mines where they can't disarm with ease, they will most likely run into them.

Also (this is pretty n00by) DO NOT mine anywhere where enemies can't get to!!

example: Barracks on C&C\_City.
