Deathgod I want to kill myself because people like you have been allowed to exist by this world. I don't think there's anything wrong with that desire, as the desire I have to find you and kill you is stronger.

LOL, Suicide must run in your family, because trying to do something to me outside of cyber world is a sure way to commite suicide.

I don't want to hurt anyone, but if your threatning me, be well warned.
