azngqboyi do this in islands on the Renstation server... alot!

buy an APC, carry no one in it, or jsut one, wait for a tank to be bought, and guard it, u will notice the only one running at it in a straight line is the one who bought it, kill him, by the tiem he can get there, u will have time to steal it, i stole a stealth tank early game once like this, i got a good 1200 points while everyone was havin a 100 point scores, also i ran into the hand of nod and C4ed it good, so i got a good 1400 points fast, crippled them, and had a good laugh!

do tell me this isn't atleast a bit creative

Anyone who has a brain does that, I usually wait until my APC is extremely damaged.

I stole...A stank...A Flame tank...A APC...Etc...
