Ok, I'm not often a Sniper but my best was on Field, I'm as a Med Tank, driving out the base an
shooted to nowhere, but hitting exactly an StealthTank... I kept on shooting at him, because he
don't move/shoot back (why ever) then I wanted to drive my way to the Nod base, shooted
another random shoot in the direction i was currently drivven and WTF? Killed a SBH and
enlighted another Stelttank.. that was real horroshow.!!! :twisted: :twisted: :twisted:
