p0opiesRenEvo logs your serial number, i think i'll pass.

not this AGAIN, RenEvo doesn't log your serial numbers at all because they don't recieve it, its REOL, and REOL does recieve your serial keys but doesn't store it, and if it did, what the fuck do we need to do with YOUR serial key?, nothing indeed.

WOL and GameSpy sends your serial key aswell, its a way to validate that you have an legal copy, we didn't want to recieve your serial key but because wol uses it, we have to use it aswell. Can't help about that.
