Subject: Failed to get bandwidth

Posted by zunnie on Wed, 04 Feb 2004 15:32:03 GMT

Anyone know what could cause this:

Detecting bandwidth...
Failed to get bandwidth - error code BANDTEST_NO_FINAL_PING_TIME

I get this error ever since my ISP "Expanded their network capacity", and the server ping is like 200+ all the time (in game is no lag, only server ping sucks) and to me personally, the server ping in list is always above 800 :S
