This mod is a Star Wars to Renegade total conversion, which immerses you into the Star Wars universe. Covering movies, four through six, this mod is coming along extremely nice.

I'm sorry I can't offer you more than just my support. Don't be discouraged by random rants from seemingly critical individuals. This mod threatens no one; there is no reason to knock it, this community member, or for their choice of words.

us think for ourselves and will draw our own conclusion.
