IRON-FARTNo, they are not illegal. Neither are No-CD cracks, copy CD cracks, trainers etc. They are all legal. But if you use it in the wrong way to get access to a program that you didn't buy, then thats illegal.

Depends on your country, however I think that in the USA it is illegal to create, distribute or download them as they are in violation of the digital millenium copyright act.

Disclaimer: I am not a lawer and this is not legal advise.
