I bet that I have the worst computer on these forums!!!! And I bet that pretty much no one can beat me!!
Pentium III 733
128 MB SDRAM
Nvidia TNT/pro...
...and I am wery poor to upgrade, so if anyone has some spare video card(better than the one I have of course), or a spare SDRAM chip(or what is it called), I wouldn't mid if you could send it to me
I will post picture of my peace of s**t later.
