I miss the days when Gamespy wasnt clogged with n00bs and n00b clans, I took a little poll, like 50% said they havent been playing for over 5 months, 25% said they played for more then 5 months, and the rest were n00bs in denial like one guy said, "I've been playing Renegade since the beta demo came out, yur the n00b, Im a 1337 hxor, arg fear me im a big nerd!"
