---

Imdgr8onez310Ok i kinda lied i do know about computers, also i have freinds lots of them. I hate starwars and stuffing things up mine nose is stupid.  
another definition is lying about the reality of your life. Or therfore lack of one.

2 things, 1 have a life - 2 i thought i new only a little about computers untill i found out i do know more about computers, i found that out today.
