Titan1x77AircraftkillerYeah, then you won't have to bitch and moan when I kill you again.

Like the time you accused me of using bones.ini to kill you before, over and over. :rolleyes:

Like I said before...It was a joke...thats why I PM you with it and didnt accuse you there after.

If i was serious I would of said something to a mod or posted about it.

Of course it was a joke. It's always a joke when someone gets caught and knows they're wrong.
