YSLMuffinsI downloaded the 1.01 setup file from renguard.com manually, but RG still INSISTS on autoupdating every time I start it up. Why is this?

k they brought out a better update wich should work on every server u need to install renguard 1.00 new and let it update itself ones u uninstalled renguard u need to set back game2.exe to game.exe so u can install renguard it worked on three computers i tried it on with xp
