Thank You Crimson!
I'm still having a couple problems, but nothing to bad, if they can't be fixed then it's not a big deal because it doesn't really matter.

http://www.egmods.com/Main/Poll/poll.php

1. A bar (http://www.egmods.com/Main/Poll/bar.gif) should be showing up inside of the white boxes.

2. All of the text except the link to view the archive is black. I would like it to be white.
