Ok, here is what you do.

Make sure you have a valid Westwood Online username / password. If not, run register.exe in your Westwood\Internet folder.

- (1) Start the game.
- (2) Select Multiplayer Internet.
- (3) Select Westwood Online.
- (4) Pull out the menu on the left and select My Information.
- (5) Clear the checkbox in front of "Automatically login with this account" (i.e. make sure there is no x in it).
- (6) Click OK.
- (7) Click Back, and click Back again. You are now in the main menu of Renegade again.
- (8.) Select Multiplayer Internet.
- (9) Select Westwood Online.
- (10) Select Advanced Game Listings.
- (11) A login screen appears. Type in the new WOL username and password you want to use. You write over the last username / password you used, but they do not get erased. No worries.
- (12) Click Connect/OK (I am not sure what it says on the button, but it's obvious).

That's it. You are now logged in with your new username.
