Here's how you check, look toward the bottom of the RenGuard window, it should say somethin like this, only with your WOL/GSA nick & maybe not the skins warning

[14] Trying to connect to server #1...Connected
[14] Secure link established.
[14] Welcome to RenGuard , Drkpwn3r!
[14] To launch Renegade, please click 'Renegade'.
[14] WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server.

The nick should be the same as you're planning to use, otherwise it's not the same :rolleyes:
