Subject: RenGuard Feature Idea
Posted by kadoosh on Sat, 29 May 2004 20:38:47 GMT

I'm refering to having multiple people play on your comp at home. my friend usualy uses mine while i'm not here so when i get home i have to log into renegade, change the screen name to mine, exit all the way out of renegade and renguard, then log back in. It would be nice to have a Screen Name selection box so i can change it in renguard then in renegade when i get there.
