While we're happy that you have the secret to making a million bucks, we would rather you kept it a secret. Westwood Online is for gamers, not for your sales efforts.

:rolleyes:

whats wrong with a000 names? its fucking gay, even with a000 you still have less players and now every idiot is putting a0000 infront of their names, real smart idiot.

I'm sure people would be delighted to know they are dealing with a 13 yrd old before they host from you, gamerzheaven is leaving you b.t.w.

People may cheat on my servers by at least their are people their to play, we have mods to deal with cheaters, you can run renguard to make sure your servers stay at 0.

Back to topic my ass, I wouldn't have said anything, but you had to fuck around and instigate some shit *malicious hosts* You started your topic acting like a dumbass and now I'm going to hand you your ass because of it. Besides no gives a crap about your dumb attempt anyway. Go away and finish school, God knows MOMMY is yelling at you to prepare for o-level classes school boy.

got a problem with 13 year olds :rolleyes: , was you able to program when you was 13? no.

if your server does not run rg, i am going to assume cheating is allowed on it. :rolleyes:
