Do u think u can add a couple of commands like..

!slap ex. *nickname* just slapped <nickname> with a brick and broke his arm!

!spit ex. *nickname* just spit on <nicknames> new pair of shoes!

!punch ex. *nickname* punched <nickname> with brass knuckles, That must of hurt!

!mods ex. another ex. of !showmods

!modcommand1 ex. Shows the things MASTERS can do

!modcommand2 ex. Shows the things ADMINS can do

Blazer or whoever makes the Brenbot. Can u make some commands like that plz? and plz put rengaurd out for that 1 because some people dont use rengaurd. For brenbot 1.36 u can put brenbot in there. Some people get kicked when they got rengaurd. So i would like to not have rengaurd in it. Plz consider it into the further brenbot updates.

Thanks for your time.

Hmmmmmmmmmm, there might be a way to turn it off. Let's RTFM and see that !set renguard off run in IRC by a user with voice/op permissions will turn renguard off on Brenbot
