This game had/has so much potential.

Get Petro to design a new engine, and buy the rights for Ren 2.

Some file in Always.dat makes a reference to Nod, GDI, Civilian, and Chicken as being the possible sides.

Hum, those are codes according to my 20/20 vision.

You can also zoom-in to verify, what I say is true.

Still, those are pretty funky.

yea it blows when publishers put pressure upon the developers to get a speedy release and then the game comes out missing so much..

I want Super Chicken.

By the way, if you look at the board closely, it actually says "Game Codes," not "Game Modes."

I would stay away from a nude mode... last time I checked, there were more male characters then female, many, many more, including the hundreds of nameless foot solders
