 i got win XP so i go to software and i saw rengeurd in the list so i klicks on it and there were two buttons uninstal and instal and i pushed un instal

i don't no witch one it is srry

srry my English is not good

i want it gone becouse if i start renegade he starts a program for updates or some thing only he
said can't connect to server opp or something so i can't start renegade

that's why

:rolleyes:

A) Remove Renguard And Reloadload And Install

B) Load game2.exe for non-renguard
