When you go to buy bread in the grocery store, have you ever wondered which is the freshest, so you "squeeze" for freshness or softness. Did you know that bread is delivered fresh to the stores five days a week? Monday, Tuesday, Thursday, Friday and Saturday.

Each day has a different color twist tie. They are:

Monday - Blue

Tuesday - Green

Thursday - Red

Friday - White

Saturday - Yellow

Well over here in the UK it aint like that so we don't get different color twists I just have yellow ones all the time. This is because in the UK most shops bake their own bread every day so it is always fresh!!

Again blazer brings us the info that we never really wanted to know but do now.

Next time I got to the store im making sure I get the one closet to my date.

Here in Holland, if those ties are what I think they are, they are always red. Which means either we have old bread five days a week, or the system doesn't apply here.

What does your source say about transparant ties? Or white plastic clips?
