cuz the new one won't work. if so can you post a link to it.

http://www.renforums.com/viewtopic.php?t=11416

go there to see the extent of the problem.

Sorry to go off topic, but..

Is that a wet banana growing from that anime girls skin??

Actually I run Brenbot-130 on my server cause I didnt really like the new one much either lol... It still says like Coming soon Team Speak Regulator! Unfortunately I don't have any webspace to upload it to. I'm poor.

Also I too had wondered about that picture DD... lol... I thought it was like a bird or something.
