Subject: Server Matrix 2.8 Super Servers 99/month 0 setup fee.

HI,
I'm planning on leaving renegade soon, but I'm wondering if anyone is considering getting into the server scheme of things and wanted a cheaper route then buying directly from SM.

If you want a super 2.8 server for 99/month dedicated w/terminal access, please let me know.

I have 2 of these that I don't want to let go so I'll seatle by letting somone lease them off of me.

Remember this is cheaper than theplanet and I"m not making any money from this.

the UNRULES servers were hosted on these servers and the run grea.

p.s. the 2.8 super server has 512mb ram and 1 gb ram. You will not see a differnce in performance for the game server though.

99 USD.
0 setup
win 2000 OS
FULLY dedicated box
same as this:
https://www.servermatrix.com/solutions/ss28_server.html except 512mb ram.

Basically you save yourself 50.00 dollars. I can prorate the charge for the remaining of the month if anyone wants to get one now.

Not sure yet depends on what the clan wants to do, however, I'm no longer going to be the server admin.

If I had the money I would glady take one of them for either a Renegade server, or a server for my site so that I could mirror RenAlert .993 . . . but unfortunately I do not have that kind of money right now . . . When will this deal be ending anyways?

I would need to have somone by the 23rd, on the 24th I put in my cancelation request (you have to give them 7 days in advance when canceling your server)

so the deadline is the 23rd.
