wtf has ack2k1 done? I mean really. Has he killed anyone? Has he done any physical harm by anyone?wtf is your problem? Just because he has different views then a lot of people here doesnt mean he should be an outcast.In my personal oppinion ack2k1 is a great bloke. He has been around since the dawn of this board and has seen and knows a lot. He is one the oldbies. A dying breed. If you dont like what he says then dont read what he has to say!jeez people, grow up!

A lot of that is true, but there are reasons as to why some people hate him so much. Just before ACK flames me, I just want to get this straightened out. This is what I have observed during the past couple of weeks, all right?Aprime1: Hates ACK solely for the fact that he keeps harrassing him because he is learning english.Slubby_Q: This guy needs no explanation. JOAKES: Hates ACK because he is pestering him about the name. ACK, it's just a name. Let it slide. Oh, ****. I can't remember a lot of them, and I'm too lazy to look it up in past threads (I just woke up). I'll add more when I can remember them. But now, I'm gonna go play EnB. [July 08, 2002, 14:12:

Ack is only flaming people who flame him. He only corrects people and he says his opinion and he has a very realistic look on things.(but that just what I think)Just let him speak. I mean...after all the flaming of people against him he still continues making maps and even giving out vital info that everyone should know if they want to mod, like the topic about the Temp button. That shows that he has nothing against people here.

A persons worth on this board is messured by how he/she contributes to the community. Also how they treat other people, and how they act.

Hold the phone. Im confused. If you truly hate a person, how come you keep begging him for maps? You cant truly hate a person if you like him in some way. Im just tired of the flaming. Ack has started some flaming. I have started some flaming as well. My main goal was to stop the

flaming (which me and kai did along time ago, and we actually became friends) but that goal seemed to have slipped past my view. But I cant complete this goal if I keep starting flame wars with ack. Im willing to try to start a friendship, and put aside our differences. Their is no reason why we should all be enemies on this board. Are you willing to accept my offer ack?
