I open brenbot..  
it closes..  
Brenbot wont show error message real quickly..

I got to cmd.exe

i type in the folder..  
i type: brenbot to open it..

Then i get the folder line back again...

like brenbot doesn't exist, no error message, just drops back to the folder line..

Ports are set ok..

My brenbot config;

```
#--Start Configuration-IRC-----  
# Edit the information below for your setup.  
# At least edit BotName and IrcChannel.  
BotName = aFEbot01  
BotFullName = BlazeRegulator/BRenBot 1.30 Win32  
IrcServer = irc.n00bstories.com  
IrcPort = 6668  
IrcChannel = #aFEserv01  
#---Q/NickServ-----  
# Enable auth via "Q" or "NickServ" below. Sample input is shown.  
Qauth = 0  
Qusername = RenBot01  
Qpassword = *****  
# Note for NickServ auth you give the name of nickserv and the full ident string as example  
NickServAuth = 1  
NickServName = NickServ  
NickServAuth = identify *****  
#--Windows or Linux-----  
# BotMode MUST be "WIN32" for windows servers, or "LFDS" for Linux servers.  
BotMode = WIN32  
#--Remote Admin Settings-----  
# The next 3 lines should be the same info that is in your server.ini  
# Note: Although it says "Linux" its the same for Win32  
RenRemLinuxHost = 127.0.0.1  
RenRemLinuxPort = 5000  
RenRemLinuxPassword = *****  
#--FDS Installation-----
```

```
# Verify these paths are correct with your Renegade installation.
# Note: FDSLogFilePath must end with the trailing slash (as example below)!!
# Note: Linux users use forward slashes (/) in your paths.
FDSConfigFile = C:\Westwood\RenegadeFDS\Server\Data\svrcfg_cnc.ini
FDSLogFilePath = C:\Westwood\RenegadeFDS\Server\
#--Miscellaneous Settings-----
# Every x minutes the bot will announce a random line from AutoAnnounceFile.
AutoAnnounceInterval = 600
# LadderLookup currently not working. Do not turn it on or it will hang the bot.
EnableLadderLookup = 0
# Set this to 0 or anything but 1 to disable voting.
VotingEnabled = 1
# How long people get to place votes. Default here is 60 seconds.
VotingPeriod = 60
# Set vehicle kick to 1 for Sniper servers
VehicleKick = 0
#--BR Configuration Files-----
# BR Config Files - You shouldn't have to change these names. You can still open them with
notepad.
AutoAnnounceFile = autoannounce.brf
Messagesfile = messages.brf
AdminsFile = admins.brf
MastersFile = masters.brf
KickLogFile = kicklog.brf
BanLogfile = banlog.brf
#--End Configuration-----
```

Quote:RenRemLinuxPassword = \*\*\*\*\*

Not enough characters... use 8 I belive it is.

Ofcourse, those stars are just to hide my pas..

8 chars is right, and thats in the config as well

Change the port '5000' into something in the 4000-range , port 5000 is commonly used by other programs sometimes.

Maybe brenbot auto-exit because the port is already in use. Try using port 4546 or 4023 or something simular and retry. Maybe worth a try...

No thats impossible, The ports are setup as they should..

I have no other programs running on the pc, because this is a sponsored CYBERPOINT.NL Server,,

It's a server, not a pc....

No firewall i think (well theres a good security, only no ports are closed)

Btw zunnie..

We are already buying a server from your clan..

i believe it is Baya clan, and we are getting brenbot 1--youknowwhatversion for free..

My question is.. can you please let us run that 1 on our other server as well?

(Msg from: ucrybaby) (server rented from: bajadera.)

u just have to retry to start brenbot a couple of times (sometimes it takes very long). Brenbot just has a weird problem with starting under windows.

For exemple when I start it:

```
D:\>cd BRenBot-135
```

```
D:\BRenBot-135>brenbot.exe
```

```
BRenBot 1.35 MSWin32.
```

```
brenbot is Copyright 2003-2004 by Blackhand Studios. All Rights reserved.
```

```
Connecting to RenGuard...
```

```
Could not load ssc_ignore.txt - No users are being ignored by RenGuard!
```

```
Got serverlist..
```

```
blablalba
```

This time I had to do it 6 times before it finally started. Sometimes it takes even more attempts.

Good luck with it
