DarkDeminPost your holiday desktop.

there have been about four desktop threads this month, your picture is too large (and stretches the forum tables, good job ruining the thread first post), the girl in your picture wouldn't last two minutes on a london street, and besides, why the hell have a holiday desktop? if you aren't out during the holidays you need to be.

What the hell, STOP WITH THE DESKTOP THREADS FFS.

Besides, why holiday? Is it offending to say "Christmas"? :rolleyes:

Megatard sucks.

Megaman Legends was a strange one, it was 3-D and featured way more fun. That's one of the reasons I still play my PS2, I have played that game at least 20 times over.
