Renguard sucks...

it's crap that you pass off as a program...and it's not...it messed my comp up once to many times...messed up my ren now i can't even get on it...and now i really hate you morons whon desined this junk....took me 2 months to fix all this shit....and your core patches suck to they reall absolutly do nothing....hell i get all the maps at unrules.com rather than get 8 at a time trough this core shit...hell you can'y even use skins it says...can't use drop mods or it closed my game with you have violated some shomthing and thats bull...it would be a complement to call renguard a worthlesss pieca shit...and that's still speaking why to highly of it.....maby you should ummm.. FIX THIS CRAP.....you can't even use models for example i got the pistol from reborn and it won't let me online on even starte ren..that's gay..i mean ot doesn't edit nor change the values of the power, reload, and firing rates just changes the sounds and it won't me on GAY.....go back to programming school...and make somthing usefull...and this junk.....

THEY SHOULD CLOSE THIS SITE DOWN AND TAKE RENGUARD OFF THE NET PERMENTALY.....so this will never happen agin.....and these renguard servers who boot you automaticly if you don't have that fucks ur game up...and is shit i mean i've never cheated in my life and i get kicked thx to ur gay shit program.....i hope you morons nevr make mods...they would probaly be worse then a virus...my friend can't even install ren thanks TO YOUR BULLSHIT...maby you'll learn fromthis and take the download off the net...

and please excuse my language..it was very inaproprate.....

You're a moron. You know nothing about RenGuard, how long it took to get produced, how complex it is.

And you know nothing about Core Patch 1 either.

Go away, n00b.

PS: The right way to get support is to join our support chat, and get live support. If you are too n00bish to do that, you deserve no help from us.

Genius, I am calling YOU an idiot. Why? Because you're a fucking dumbass. You can't type coherently, so why would I think anything else of your lame ass? Also, if you havn't noticed, it takes a lot of skill to what they did, and if you're so "1337" then maybe you should attempt to make a program like RenGuard. Oh, I forgot, you'd actually have to KNOW something to do that. So sorry.

Then get them to speak coherently and explain their problems. See, if you would actually take the time to learn and ask about your problems, they can usually be resolved quickly. But, NO, you geniuses have to go in and fuck it up further all the while blaming it on the programmers of the program. Grow up, you ignorant fucks.

Edit: Geniuses, I NEVER said I could create it or ever claimed that I was smarter than the programmers. Also, genius, stop pulling arguments out of your ass. "Coherently" is a word.

MORON, DID I SAY YOU WENT IN AND EDITED IT? NO! Learn to read, you fucking idiot. You idiots tried to fix it on your own, and then you wonder why it fucked up your game. I'd recommend going back to the 3rd grade to learn basic reading skills.

I dont think they should be complaining about spell either when they can't.

Ill show you what errors you make (from irc):

<Dead6re> smarte  
<Dead6re> nither  
<Dead6re> ren gaurd  
<Dead6re> pron  
<Dead6re> and so on  
<Dead6re> accully

These where just cut and pasted from irc, when i posted them to show these twats spelling. Whats the ips of the users, anything like the same?
