i've been having trouble with rengaurd lately so i decided to just reinstall renegade compleatly. but when i went to do the actuall reingstall i came accross a big problem. what happens is after the game is done doing its intro movie thing, it like normaly, puts up the screen that has the privacy policy that asks you if you accect or not. there is no lettering at all. all there is, is just empty boxes. i've tried restarting it about four times now with nothing different happening. i have no clue as to what is going on. could someone please help?

1.) Uninstall all

2.) Install Renegade

3.) Install 1.037 Renegade-patch (choose the one in your language):

ftp://ftp.westwood.com/pub/renegade/updates/

4.) Install Renguard
