Whoa! I wonder if it is backwards compatible with PS1 games...

That thing better have a telescopic butt scratcher.

A flashlight taped on a controller?

Weird enough as it is.

Make believe the flashlight isn't there. Do that and you're left with a wooden carving and a rubber ducky taped into a controller. That's...useful.

Lol, I remember the prototype PS3 they had after releasing PS2. It was just 6 PS2s all hooked together.
