What the hell are you talking about?
Could you please speak in a normal sentence with human speech?

Quote:Here's a suggestion for CorePatch 2.
Please make it so that when you tap the crouch key, you will stay crouched until you tap it again.
The default is 'c'.
Also, I think it would be nice if the same would occur with the "swap turret camera mode" key. The
default is 'v'.

By the way, I have a 1 person 4 vehicles mod.

Try buying a normal troop. Go into third person view (by hitting F) Then hold V and move your mouse around. Same also applies to vehicles.
