You press f8 then type team2 (playernumber) (2) to be nuetral, team2 (playernumber) (1) to be
GDI, or team2 (playernumber) (0) to be Nod.

To change your team you must press f8 then type
team2 player# 0 (to become NOD)
team2 player# 1 (to become GDI)
team2 player# 2 (to become Nuetral)

I have found out that this usally dosn't work on other maps because off nuetrals starting position
(mostly under the map).
C&C_Duel_Arena is recomended map to be nuetral.

It still does not work. It says that team2 is not a command.

9 would be the player ID...so say I was nineth place in the game, and you wanted to change me, you could type team2 9 2. but I think you can also use their name as the ID. team2 foxofts 2 (this would make me neutral)
