I setup renguard and use it and when i play online i am insulted of fatass nob who don't have renguard. The connection was ok.
[14:59] Trying to connect to server #1...Connected
[14:59] Secure link established.

How i could i make the other stop attack me because i don't appear to have renguard??

It was probably the first time you connected. Close renegade and renguard, then restart. It should work now.

I've been having the same problem. I suppose the servers just need restarting or something.

Check to make sure that the WOL nick that you are using matches up with the WOL nick that RG reports.

It doesn't Match, How could i change that??

Edit. I made the whole thing match. Sorry for have annoying you.

Good Bye. Core patch 1 is good.
