Can't say much about your clan at given time, but your handle on the English languages "is crap". So is your name, on that note. Where's the originality?

You're more than welcome to plunk "StLithius" into your Buddy List and stare in awe at my massive Death count. I presently hold 57% more deaths than the amount of kills I've made! :D You might be wondering about why that is, however. Simply put, I habitually dash into things like a madman and don't ask questions. I'm usually the one gunning people down in narrow spaces with an Officer, or on occasion, being sneaky and playing "lookout" on the opposition's base. I don't do one-on-one matches if I can possibly help it. Aside from the inevitable run-ins with random people trying to ransack our base/capture our flag, I mean. No, I can't say I've ever joined a server with the exclusive idea of going mano a mano with one specific individual. Particularly not when they have a freaking sniper rifle in their hands. That, my friend, is clear and cut suicide, no matter what skill level the sniper may be. Though I do recall getting called a "n00b" because I used a Chem Warrior to hose down some dumb Deadeye in some server once. Gotta love it when snipers try aiming point-blank while running backwards.

And you sound like a twelve year-old. I don't like that, but I've grown accustom to it, considering this is the Internet, afterall. Frightening how it actually comes about, and who it infects, really. My sister, for example, is a thirty-three year-old woman with a highly-reputable job as a police dispatcher for the City of Phoenix. However, her job has taught her this. To type fast, you must sacrafice "unimportant" things such as grammar and spelling. No kidding. She types like everyone else on the Internet as part of her job. It's ridiculous! But I digress. I'm just getting ranty again.

By the way you act on these forums, I sincerely doubt anyone is going to want to join your clan. I don't mean that in a mean way, mind you, but it's just flat-out truth. No matter what skills you and your two mates might possess, you act like a typical. . .excuse me for using this term. . ."n00b". Ugh, saying that made me feel dirty. . . I need a shower.

Here. Let's try a little something unique. I'll be your tutor.

You Typed. . .here m8 i dont know who u r i dont give a f**k who u r and to be honest i think ur an ars*ehole ok i have 10 members in my clan and we r high ranked just coz u got issuse with ur life dont mean i care so f**k off ok

What You MEANT to Type. . .Here, mate... I don't know who you are -- no... I don't give a fuck who you are! And to be honest...I think you're an asshole! Just because you have issues with your life does not mean I care, so fuck off!
And just for your information, [I/we] have ten members in [my/our] clan and we are ranked high.

There now. Isn't that much better?(Surprised no one else's stepped in by now, frankly. . .)

Speaking of your clan, how did try-outs go? Roust up any new blood? Get lots of shiny new Clan Mates to wrestle with? Gonna go kick you some rival butt? Hee hee. Ah. . .youth. How it's so wasted on the young. . . :3

AFTER i read Mr. Collins' post, i understood what you said. Its actually scary. I couldnt understand a thing you said, yet a few moments ago i read three sentences compiled of nothing but "1337" speak.

- A. Do not insult people on these forums if your new.
- B. Speak right, boy!
- C. Dont use "1337" speak, or single letters in place of words.
- D. Dont bleep out your words. If you dont like saying them, change them around like i fuggin do.
- E. Your clan sucks. GDE is better.
- F. <--Your Grade in English, more than likely.

G. How high ranked? 250 of 275?

H. Idiot.

I. ...Alright, no I just yet, but by god, i wanted to get this far.

JKLMNOPQRSTUVWXYZ. End.
