I see alot of people with a logo of it in there sig. (A pretty awesome logo I must say.)
I wasn't sure where exactly to ask this so if it needs to be moved please don't be angry.

So yeah, I was wondering exactly what the 'E-Terrorist' thing was. Is it a Renegade clan? I'd love to join. But you'd have to excuse my current suckage on it, I'm waiting for my new comp to be set up. This one is kinda choppy, but stil playable.

Thanks.

Thing?

Ben, do you actually WANT us to attack your topic? We are just taking bets on how long it will take for ACK to post a picture of a bear skin. We can turn it into a topic about monkeys if you want

Our objective is to take stupid pointless topics (Total Spam) and hijack the thread, and make it our own. Look at the topic "whoa". Look at our topic there. That is a perfect example

Like how?
The "This topic suck and is now about..." is funny. Usually.

EDIT: Yeah, I seen the 'whoa' thing. I thought it was hillarious. Did I spell that right?

Yeah, "whoa" was where we started. Here is another topic where I started the hijack.

http://www.renegadeforums.com/index.php?t=msg&th=17135

Nopic's post. Got locked at 3 pages

And Ben, take it out of your sig, or I shall truly attack your topic "recreate the beta".

All we are doing is having a bit of fun, while pointing out what pointless topics people create. IF you think we're going to be angry just because you put something into your signiture then your world is very small and very deluded.

If you cant see the fun side of it, don't read it. It's not a hard concept to grasp.

I was wondering how to get a siggy. I put in some text and FUDcode, hit update, clicked on the "home" link, looked at one of my posts... and nothing. By the way, it was going to be the "E-Terrorist" one. I hope you don't mind. I try to do my part

E-Terrorist are a bunch of 12-14 yr olds that think they are "L33t". They all have the same signature of some japanime thing that doesn't relate to the group at all.

Simply put, just look at the group that the kids playing magic are pointing at.

Actually, that's the wannabe E-Terrorists. Ben and Nopic. Really, we are just turning stupid annoying topics and turning them into something that is much better of a topic. For example, we turned a topic about insulting victims of Hurricane Katrina into a topic about Penguins. I feel we actually did something good.

Oh go feliate yourself, Oblivion. Why do we have this signature? I honestly don't know... ask DarkDemin.

We're "cleaning" this forum of pointless threads. If people don't want their topics hijacked, they better have a point to the thread.

Also, ben, take the signature out before I take matters into my own hands, okay?
