Hi. I need help with scripts. Where I could a am was able to download scripts.dll for my Renegade FDS? I need script where is:

- 1.Crates
- 2.Refinery give 4\$ per second
- 3.Harvester give 1000 credits.

Please give me link. THX all.

Or, you could use a timer and scripts.dll and not fuck everything up.

Use leveledit to edit the presets. About the \$4 a seconds thing, t think you have to open the actual map and add another ref controller although i'm not sure.

---

Okay... Get renegade public tools, open level editor and edit the presets (example:  
munitions\ammo\ammo infantry\ ...)  
To extract go to C:\ProgramFiles\RenegadePublicTools\LevelEdit\Ur-Mod-Name\Pr esets\  
and take the objects.ddb from there

---

Okay wont edit it...  
Heres the edit:  
Presets \*\*

Umm I dont know... lol...  
Just search on [www.google.com](http://www.google.com) for scripts...

i think the best way to do this is to make server side mod (.pkg) file. Use ren tools, open map and goto

Buildings >> Refinery >> mp\_GDI\_Refinery  
Buildings >> Refinery >> mp\_NOD\_Refinery

change these settings :

Funds Distributed PerSec 2.500 (change to 4 or 5)

This should do the trick .. plus u can also add more crates and watever stuff u want in the mod.

Open your objects.aow file in renegade tools and change the preset that neofmat mentioned, then save it and put back into the servers dir.

When you open LEVELEDIT, you'll see "Presets" Tab on the right hand side. So under presets

---

find "Buildings" then further expand/open you'll get "Refinery". Now you should see two nodes

mp\_GDI\_Refinery  
mp\_NOD\_Refinery

Select one and then click "Mod" at the very bottom. A new screen will pop wid differnt tabs. Select "Settings". Then scroll down to the very last few options. You ll see "Funds Gatherd" and "FundsDistributedPerSec". Those are the options you need to mess around with. Do the same for Nod refinery.

For reference i have included screen shots, have a look at them.

neofmat
