I agree. Whether you actually made it or not though, you're still an idiot.

Stop posting other people's work, and claim it for your own.

Being a n00b is one thing... but plagiarism? Come on nopic, that's really low of you.

The author of that work has been notified and is taking care of the problem. However, nopic, it is very wrong to steal other people's work and claim it as your own. Someone really needs to teach you a lesson in one way or another. You're a total blithering idiot. You need to grow up, do something on your own for once. I don't know how you can stay here on the forums and take the constant bashing from everyone. Do you not have any real friends? The way you act on these forums make me think you don't.

Grow up.

I'm sure it's fairly well established that nopic is a complete and utter disgrace, why anyone would have believed he made ANYTHING which he claims he made is beyond me. Shame on those who even contemplated he might have made that.

I think one of the major clues here (assuming you don't know what nopic is like) is "Downloading: vidual basiv tutorial"

nopic isn't even a script kiddie, he is a wannabe-script kiddie :\

Mindtzar had it right. You're = you are. Your does not belong there. I'm sure Aircraftkiller would love to give you a private lesson on the proper usage of "your" and "you're".

I'd happily do it, two things that annoy me are improper use of their, they're, there, your and you're

Why the fuck can't we just ban nopic once and for all? He's never going to change. He only seems to be even more and more immature each and every time he posts. He serves absolutley no purpose, and the dumbass has even plagiarized something so obvious. The kid either needs to be shot or banned... Whichever one is preferred... doesn't bother me.

I was going to make a topic asking Crimson about that actually. I wish he would get banned, and I have an unlimited supply of reasons as to why he should be, and I am sure so do the rest of us.

When you say "my" you imply that you fucking made it. Is that such a hard concept to grasp? If it's NOT yours, don't say "my".
