[13:48] Bad/Corrupted file C&C_Islands.mix has been found in your renegade directory
[13:48] You have been kicked from the server for cheating.

im using the one included in CP1

RG prob or has it something to do with the server i played on?

Don't exactly know but I'm sure some people have had it before, just delete it and the .thu file and
replace both.

replaced already with a backup one, like i said i have plenty of them

but thanks for ur help

anyway cant believe its caused by that map, i have it since a clean install of renegade in july and never had problems since then

I'll check next time lol, I'm sure I downloaded city_flying from there. It was too long a go, I only have the cp1 + default maps so I don't keep track of map websites.
