All of the skins for the Assault-Suit equipped characters are screwed up, but only those skins.
How'd that happen?

SS is attached (that's a PIC Sydney by the way)

I got something similar to that when I had my graphics settings turned down, or when my CPU/Card lagged for a second.

It also made the legs on the main Sakura skin look awful.

It happens when you set the Detail to low, set it higher and it will go away.
