I need to know how to make a c130 drop mod where you can fly an cargo plane with the propellers moving. I've seen it done before, but I cannot find out how to make the plane animated. Help please!

i think the c130 drop mod is a program where u can choose what comes out of the plane.
you are talking about a custom mod.
just open leveledit and change a vech to the c130

No, with a c130 you can attach other vehicles to what comes from the plane or appears, and make the original vehicle invisible to make it appear as if you are flying the other vehicle (Example: C130 plane)

This?

Pritty sure thats only 2 files it needs to work... say so if it dosent

File Attachments
1) C-130 Drop Editor.exe, downloaded 170 times
2) cnc_c130de.cfg, downloaded 193 times
