i came otu of a game where this person "owned?" was hackin so bad that he got like 100 kills,like 3 deaths in 2 minutes ,and took out our whole base.I hate hackers they ruin the game for everyone that is playin ,and honestly i think they should all get spawned constantly and i play on it if i see that owned guy agian.

I think you may be exaggerating on both kills and deaths. My question, what is this "spawned constantly" you speak of?

A lot of good things are discovered by hackers, games in general probably wouldn't be as advanced as they are now without them. I believe it's cheaters that you dislike.

Cheaters are the main problem when it comes to in server problems, hacking and cheating are 2 totally diffrent things.

No you guys are still off.

Hackers, Script kiddies, then n00bs who know how to download script kiddies work.

Not all hacking is illegal or bad. Some of it is VERY helpful(ex. finding security wholes in software before it is released.)

actually i was not exaggerating about the killing and deaths ,and yeah some hacking is good,but when someone hacks or cheats to an extent like that its annoying, i might have been a little angry .

One thing that really, seriously rattles my cage is when people can't tell the difference between cheaters and hackers.

Don't give cheaters more credit than they deserve.

Nah, that Owned? guy was in both the non00bs servers yesterday. What a douche.

The kills are right, he had wallhacks, Cyberpunk's damage mod, and bighead. Looks like he's

quite a fan of Cyberpunk's.
