hi there, When I leave both renguard and renegade running for a like a half an hour or I get disconnected from a game, When I go back in, my renguard is not running so I have to go all the way out of renegade and back in. Is this common? And another thing when I get disconnected from the game and come back in it says my nickname is being used, so I have to wait for the game to finnish to get my nickname back.I know these are small problems, But is there anyway to fix them.

Thx xxredrum

For the nick problem: get a 2nd nick. When you get the problem, use it .

I can only guess your net-connection is interrupted by "something" for a very short period so or Renguard, or Renegade disconnects.
