Testing is not even 1/100 as hard as most clan tests, in fact; its very simple. Youre tester (anyone rank sergeant and above can test BTW) will count to 10 while facing a wall, you have that much time to hide, once 10 is up, you must hide for 3 minutes, but you don't have to stay in one place, you can move to different locations. I f you fail you get to try again, if you fail twice you must wait a week. If you pass the first or secound time, you will register on the forums and become a CRC member!

Well thats kinda hard to answer, seeing as i played maby...150 games on daves server, of course i had my share of deaths, but they werent near my kill ratio, i use to have a 3.0KD each game,i believe my actualy kill counter was 550 (500 somthing),or around there, my deaths were about 240, finally, my MVP's and medals were distributed threw out that 150 or so games, i got one the first 2 games i played i remember, then i got 2 best kd medals about 4 days after that, then i don't remember the other medals.

If you have any doubts though, as to if i'm a good player, and if you'de be taken good care of, leave a post on here or on my site, and ill show it to you

No, it just seems you're pulling these numbers out of your ass and I had just assumed there was a ladder I could see. Generally people die more than 2 times a game. I mean unless if they're deliberately trying not to die and thus not really trying to help the team (ie rushing in teh beginning of the game - It usually costs one life off the bat but to kill the harvester can mean all the difference) Let me put it this way.. The average you say is 3 KD, you average 3 kills a game about (which, isn't very grand at all considering..) and then one death. Generally people when averaging things and they'll have a small kill count per game, will generally have a much lower KD since a lot of deaths are unavoidable.

I just feel you're making up these numbers. Not because they're so extravagant or anything. It's just because the average number of deaths for any player (who isn't trying to avoid being killed and staying in base with a vehicle) is generally more

Let me make this clear.

Go page HRdave,Dave4989, or BBFdave some time, ask him about HRmonkey, ask him how many mvps he had, how many kills he had, and what ranking he was.

FYI: There were 1500 on dave's server, i was ranked 17.

If you have any doubt about what im saying, then ask him, but this thread is not a discussion poll, it is a clan recruitment thread, if you have questions for me, take it to my paging, if you want to join post, if you dont, leave. Because im getting very tired of people questioning my accuracy and posting stupid things that have nothing to do with joining.

Crimson is a rational person, and thusly will not ban anyone for making fun of you, which, while it may not be very nice (and I do feel a bit bad for being mean to someone who has done nothing to me), was deemed necessary by myself and, apparently, others, given the nature of the original post.

Crime, don't think you're hot stuff just because you are 17th in a server by playing over a hundred games and have 11 MVP's out of that many..

I know this is mean, but you were mean and screwed up a friendly game I was having with some of my friends to where I had to rape you 1 vs 1 on YOUR TERMS which were pathetic anyway... And many of the people that have posted are probably more than 10x better than me...

All you all are is a bunch of pricks who waste their lives tortureing other people, your hipocrits and losers, who in real life have no purpose or meaning, so you resort to the enternet to be all high and mighty, because in real life you have social problems and are weak and feeble.

Some if not most of you are going to post things like "Oh yeah sure no u r noob, i have a life you dont u suck" blah blah blah.

Say whatever you want because i don't give a damn, if you want to waste you're time, sitting here, posting in my thread which is ment for clan recruitment, then go ahead, because no matter what you say or what you do, or what you post, the truth is that all you are, are a bunch of losers with no real lives.

Looks like you found out my little chain between names eh? Took you long enough. BTW: if anyone knows one of those sites where you dump enternet chat logs for people to laugh at, tell me. This is gonna be so hella funny.

You all got played, this has all been a big joke, i started up my clan, then once mrpirate here started acting like a fool, i thought of a better idea, i thought i'd just make you all look like losers with no life; which i succeeded in.

You spent you're time posting, writing pissed off and annoyed comments and replies, paging me, trying to find ways to get back at me for taunting you and insulting you.

You have become my paper on human studies over the enternet, my teacher told me to pick a topic on how certain actions, ideas, and insults effect the human brain and the actions of the human brain.

You may find this cruel, and i'm sorry for dragging you into it, but you were so ripe for the plucking, and i needed a quick thesis idea. Thanks for helping.

Monkey Bone, aka Crime8768 <-

1. Does not value honesty, this most likely transcends into his personal life.
2. Is a total prick, but only to people on the Internet (not a fan of getting his ass kicked).
3. Will never admit he is wrong, even if the evidence is overwhelming.
4. Most likely gay or bi sexual.
