Excuse me why I laugh over that HORRIBLE storyline. For God's sake, have the damn brains to atleast write a proper storyline... you know with good spelling and grammar. Second, your storyline sounds like something a 3rd grader would write. One day, blah blah blah then blah blah blah is crap. Please, LEARN HOW TO FUCKING SPELL BEFORE YOU START A MODIFICATION PROJECT.

Please die.

I like the looks of it, however, I think you should update the description a bit:

Quote:Its is the year 2210 north Korea And china are very technology advance and one day they attack the rest of the world with there lacer cannon ,but some one attacks them to but its doesn't evectthem much. With the rest of the world in crumbles the attack was successful and under rule of Alex chi-ching and his top assassin Drake but a small group of underground freedom fighters form under the name GFJ (Global FREEDOM And Justices) GFJ is is controlled by a council . who are the council knowone knows who all the peopel in it.

only person who people know is in it is an elite soldier named Ashly and they know that the council is made up of elite soldiers  
and is a group of four.

First of all you need a little more background.Imagine you are writing a lesson for a history book.

First, write Causes of the entire conflict, somewhat a Chronology of what happened.I don't mean that you have to write years!Tie what happened within a story.Resistance and Collaboration - explain the GFJ part a bit more.How did it form, what does it do, what technology does it employ?Aftermath - What happened with the entire world after the attack, not just "but some one attacks them to but its doesn't evectthem much".

AND The most important part (!!!) where does your tc tie into the entire story.What part of the story does it involve?The Causes, the Resistance or the Aftermath?Be creative and a bit more specific

Don't take this as an insult, or as being disrespectful toward you. I'm just trying to help with as much as i can

Keep us all updated and don't mind comments, such as Jaspah's.

Grammer, eh? Well woulda been nicer if you had helped correct then, maybe.

It is the year 2210, North Korea and China are very technologically advanced. One day they decide to attack the rest of the world with their laser cannon. An anynomous group then attack Korea and China, but fortunatly for them, the assault does little damage. Much of the world is now destroyed and the rest is under the rule of Alex Chi-Ching. A small group of freedom fighters lead by a four man council emerges to challenge Chi-Ching's power.

And i guess you could fit the Ashly thing in how you wanted. I think that looks better though.

I attempted to make your storyline a little bit more interesting. Take it or leave it:

"It is the year 2210, North Korea and China are very technologically advanced in weapons, vehicles, aircraft, and other militaristic items of war. Fearing nothing, they declare war on the rest of the world with their massive super-weapon: a laser cannon. A rogue cell of individuals launch a counter-attack on North Korea and China, but unfortunately, the assault does little to no damage. Much of the world is now destroyed and the rest is under the rule of the Chinese emperor Alex Chi-Ching and his loyal master assassin Drake. Seeking freedom from this cruel government, a small group of underground freedom fighters form under the name of Global Freedom and Justice (GFJ). It's a mystery to what individuals are in the GFJ council. The only knowledge available on this council of freedom fighters is that they are four individuals on it, they are made up of elite soldiers, and one of their names is Ashley..."

No, it's cool. I was just saying that so people don't get carried away. I'm ok with fiction or stuff,  
just not stereotypical stuff like a strong accent and the eyes.....

The Chinese had a lot of nuclear stuff in Generals (i think) so China decided to be idiotic and ban

LOL

that would be funny to make a conversion that made absolutely no sense and was completely one sided

one side would have state of the art tanks and weapons and the other side could have bicycles and rocks and sticks.

and for buildings you could go nuts and have like an apartment building for one and a death star for another and like a chair for another and maybe a jar of apple sauce for like your power plants and the levels could be nuts and not make any sense like have shit all over the place that doesn't make sense and have a bunch of clowns running around for no reason and have some other crazy shit just in random spots ....

SOMEONE SHOULD DO THAT. I WOULD GET INVOLVED 100% if someone started something like that...

Ooooh, a church

The alamo as barracks? Or a building that looks exactly like 86% of all the churches I have seen.

Dang guys make your own models, from scratch.

Wow. Looks like this mod is really catching on but it has no proper team members.  
Right now it seems like a totally community created mod with only 1 member.

aces!!!Love the Sniper look.Reminds me a lot of Splinter Cell for some reason.

Thought, the eyes might need a slight Asian accent. Sure, the Asians did take over the world, but there could be a mix of genes after the takeover

Well, since there the weaker group there probably gonna want to be more covert. So if there mostly attacking at night then black. If there attacking in the morning then a camo green or something.

China should be red for obvious reasons. And since gfj is supposed to be more of good guys maybe like Blue or ywlloe/gold or a light green. Something that's considered to be more of a good color.

Good idea... seems cool. Definately original.

Now, for China's color, red would be good. For the GFJ, I'd say blue or green.

Oh, and for the "Laser cannon" perhaps it could be some BIG base defense? That'd be cool

It's realy realy sad how you give more credit and comments to a "mod" made by a 10-year old that has nothing to show but an aweful story and stolen art than the other 3 Renegade mods on this forum...
