I asked for a scoped screenshot.
Cause I suspected you of the "right click" cheat.
meaning you do more damage using the right mouse button.
this cheat connected to your right mouse button
takes away your ability to scope as a sniper.
if thats your so called scoped screenshot then you got the "rgiht click" cheat.

I suspected you of the cheat. as you ripped apart 2 arties with 2 engies repairs like they were nothing
me being in one of those.

Maybe you should give him the benefit of the doubt?
Fair enough, you suspect him.
But if this guy is willing to prove his inocence by posting it on the official renegade forum where he'll soon get slaughtered, doesn't that saying something to you?

I'd say give him a 2nd chance.

Unless anybody else on here has evidence or have seen him cheat elsewhere.

Dude I know that kid. No joke. He doesn't know me but he knows what Cybaservers were. He
used to be a moderator in my servers when I ran them. He is 100% anti-cheater. Trust me on this
one.

BTW: What's up xcmdrxxx? Remember me? I am or was Cyber030.

I know for a fact that he does not cheat. It is easy to take down 2 engi's and 2 arties. Everyone in
my clan can do that easily

You guys didn't happen to read what Majikent posted I guess.
That's an auto-ban done by CloudyServ through scripts that detect damage from a repair-gun.

BTW Atomic, was that you playing in the EoE server today?

I like how he added a twist to the "it was my brother" story by saying your brother got hacked.

In a related story Renguard killed Crimson's goldfish again ...

Good enough proof for me.

Does it annoy anyone else here when they get a bunch of friends or whatever to come on and post things like "I know for a fact he definetly doesn't cheat" and such. As if that's some kind of proof.

<dude killed someone with a repair gun>
<me> "I think dude is cheating o_O"
<random person> "Oh, I know for a fact that he doesn't cheat"
<me> "Okay. Well that's all the convincing I'm going to need"

sure it is.
but think about the fact as it was like this.
2 arties and 2 engies repairs. kill 1 arty. possible yes.
this arty had a technician.
1 arty repairs from 2 engies and a technician repairing me in my arty.he in a med.
humz makes you wonder doesnt it?

And no i wasnt being hit by anyone else.
they had 1 med, 1 hottie repairing it. and 2 engies/hotties repairing agt and weapons factory as i attacked both

Look at this.. This is an auto-ban done by the server which detects the damage done through scripts. This means that he(or his brother, dog, turtle, etc.) was cheating when this ban was placed..

Plus it takes a looooooong time to take down a teched arty, and especially two teched arties, as 2 engineers repair at the same rate as a technician.. I doubt that that's possible unless the two arty drivers suck REALLY bad.
