Maybe if you wait longer for a reply. This isn't a helpdesk, it's a community, and we don't sit here all day waiting to help people.

To help you, we need more information. Can you explain "it says my server is up but it really isnt any help" a little more?

You know, there's a reason why not everyone is capable of setting a server up. Th reason is because THERE ARE ENOUGH SERVERS ONLINE.

lol, I wouldnt even think of running a server. Unless you have a second box and a good c0n.. else your not really making it fun for the people that will be playing in your serv.
