Does anyone know where I could find the cutscenes (CGI and/or live-action) for the Command and Conquer games? I beat Renegade and RA2, and those save the cutscenes. But Tiberian Sun doesn't and I don't have the others.

You can go here <http://xccu.sourceforge.net/>

Download Xcc utilities. Use the Xcc mixer to take movies right from the RA2 or Ren or Tiberiansun CD. Or any Cnc game actually
