Ok Guys

I think this is overall down to the setup of my renegade tools, so if someone would like to give me a tutorial on how to setup them up properly id be grateful

But anyway, for the characters in renegade that dont have first player hands like kane how do you add them? I knows its possible because it was done in the god crate, and i've tried copying and pasting the location from one character in to another for the hands and that doesnt work so any help at all will be appreciated!

thanks buffymaniack
