when i try to lunch renegade ren guard wont work connects and then disconnects what migh be the problem "08:47] Scanning C&C\_Walls.mix..  
[08:47] Scanning C&C\_Walls\_Flying.mix..  
[08:47] Core Patch Pre-Check done  
[08:47] There are errors. Disconnecting!  
[08:47] Disconnected from RenGuard network " like this what and where is the eror i compltly uninstal renegade and ren guard and installed back still same problem persist what might be the problem ?/.

## Core Patch Pre-Checks

RenGuard has detected corrupt files. In order to install Core patch 2, you need to download fixed copies and extract them to your renegade directory. Mix files (maps) belong to the data directory.

Click on those download links, unzip the files and put their contents in your Renegade/data directory to overwrite your files that do not match our expected profile, and when you are done restart RenGuard.
